23 DEC 1968

MEMORANDUM FOR: Planning Officer - Office of ELINT  
Office of Computer Services  
Office of Special Activities  
Office of Special Projects  
Office of Scientific Intelligence  
Office of Research and Development  
Office of Foreign Missile and Space  
Analysis Center

SUBJECT: Planning and Programming Bulletin #6

1. For OSA, OSP, OEL, and ORD: NRO-funded RD&E projects should be handled in much the same manner as their Agency-funded counterparts for the sake of consistency. The main difference is that contract money and activity is spelled out in the NRO annex. Positions and associated funding will appear in the Management Support element of the Collection Systems sub-category. In this entry you should describe the project distribution of the positions and show the funding required for personal services (and "other" if appropriate). Since most, if not all, project funding comes from NRO, the details of the project should be in the NRO annex.

2. For all Offices except OCS: In Bulletin #3 (Item 2), we mentioned the probability of requests for special studies by the BOB and for emphasis on certain topics by OPPB. We went on to enumerate the items that might be included in these requests. We have now received Col. White's request for topics of special emphasis and are attaching a copy for your information and inclusion in your CPC. His list of topics is much as anticipated with the exception of Item #7, [REDACTED] OEL and ORD should have coverage in this area.

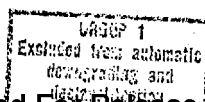

3. For ORD and OEL: The question arose recently as to the programming status of [REDACTED]. After conferring with OPPB it has been agreed that this project will be carried in R&D in FY70 and operational in FY71. This decision assumes that [REDACTED] would require at least eighteen months to fabricate, test, and install.
